8 December 1954

MEMORANDUM FOR:

SUBJECT:

50X1

1. When subject project was coordinated last spring, a number of Agency offices indicated that their use of the final product of the project as proposed would probably be limited. However, they indicated a considerable interest in the original materials described as "more than 30 detailed interviews, about 400 pages in length."

2. Would it be possible for these materials to be sent to Washington for use in the Agency? They could be returned in a relatively short time.

CLAUDE E. HAWLEY
Office of the Special Assistant
to the Director
for Planning and Coordination
